## WHAT WE DO

# We provide quality estimation services to builders, subcontractors, architects, and manufacturers.

## Reduced costs

Remote estimation support at **1/3rd of the local cost**, enabling more estimation output.

Costs include: Superannuation, Paid leaves, Office space, Software license, etc.

## Improved focus

While our team looks after the estimation of tenders, your team can focus on **delivering the projects in hand better**.

This also involves improving customer relations, business strategising, etc.

## Access to Talented pool

Broaden your talent pool by hiring beyond local borders & recruit **best candidates** around the world

India is home to 25% of all engineers in the world.

## Better together

We know that work is important, but so is play! We respect all of our partnerships, and we make every effort to engage in fun ways that solve critical problems and leave a smile on your face at the same time.

We love our job and love helping our clients. Life is just too short to not enjoy every minute!

Hey there,

We at MeBumi provide bespoke estimation and takeoff services for such products to a few subbies in Australia.

Our estimators are well trained in providing Lms of fabric, no of panels, panel size and quantities of Whiteboards, trims, etc.

I am sending you a takeoff of a project we have worked on and our rates for it to give you an intro.

Please find below for project takeoff, marked drawings and specification sheet:

We have marked the specification sheet for a quick glance on the products specified. You will also find marked drawings where we have marked the elevations and the floor plans where the pinboards and the whiteboards are located. In the takeoff excel file, we provide with the specifications, drawing numbers, elevation, the Lm of fabric required, trims, etc.

If you're interested in such services, I would be happy to discuss this further.

Looking forward to hearing from you.

Regards,

**Akshay Shewale**
